We will have final results from the lab next week, but will need to have that data validated before we can release it. That will take several weeks. However if we see something of concern in the preliminary results we will take appropriate action.

Am I correct that we will have final results early next week? I sent Terri the email update that Greg sent regarding the response.

Hi LaRonda, Greg,

See inquiry below. What releasable info do we have? Thanks.

Hello Terri,

I am looking for information regarding the EPA testing four private water wells in the York, Pa. area following the Miller Chemical fire. Do you have that information you could provide for me.

Thank you!
